

CHÂTEAU CANON - CANON FRONSAC

PRODUIT

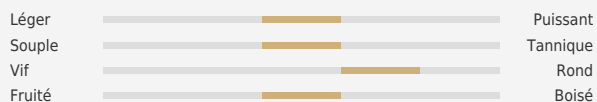

In the glass, Château Canon opens with a rich bouquet of ripe black fruits—blackberry, blackcurrant, and sometimes a touch of morello cherry—enhanced by sweet spices, subtle woody notes, and nuances of leather or undergrowth after a few years.

On the palate, the body is ample and fleshy: the tannins are firm but well-integrated, the texture is velvety, the freshness supports the structure, and the finish stretches elegantly.

Typical of Canon-Fronsac, this wine combines the power of hillside wines with a certain finesse, a balance between strength and subtlety, making it a wine for aging while allowing for expressive drinking after a few years.

Enjoy with dishes with character, roasted or grilled red meats, or strong cheeses.

PROFIL GUSTATIF
